

School of Architecture, UIUC
Fall 2011 Graduate Course Announcement

Arch-595IN

**Integrated Design and
Construction of Buildings**

This course may satisfy one of M.Arch. degree core elective requirements

Course Information:

CRN: 31402

Class Time: 03:30 to 06:20 PM on Tuesdays

Location: Room 241 Wohlers Hall

Credit: 4 hours

Course web site: <http://www2.arch.uiuc.edu/aamin/595>

Course Contents:

Integration of the various disciplines involved in the development, planning, design, construction, and operation of buildings. Course includes case studies of a variety of building types and sizes presented by professionals involved in the design, construction and operation of the buildings including some of the most monumental projects around the world.

Pre-requisite:

Graduate status in the School of Architecture. Other interested students must consult with Prof. Aminmansour before registering. Space I limited.

Course Organization:

The course will consist of presentations given by professor Aminmansour and professionals from some of the most prestigious firms in the field. There will not be a textbook for the course. However, handouts will be given as appropriate. Attendance in all lectures is required.

Course Instructor:

Prof. Abbas Aminmansour
